

WEEK 8

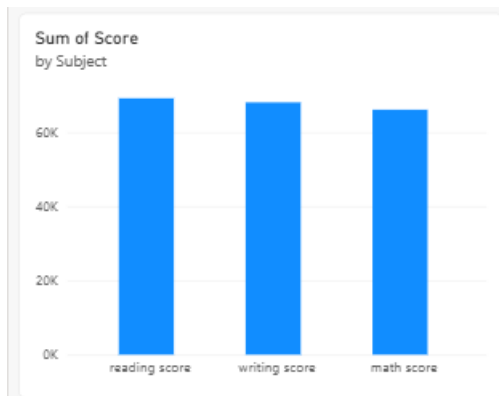

SAI SHRUTI B

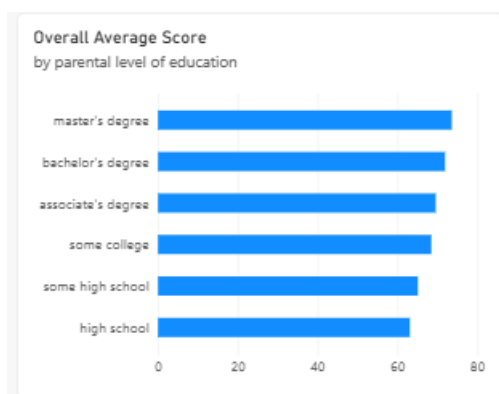

Five KPI cards were planned for the dashboard:

- Average Score
- Average Math Score
- Average Reading Score
- Average Writing Score
- Overall Pass %

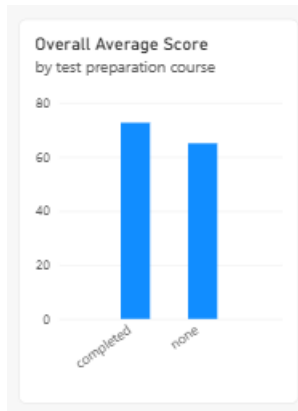

These cards provide a summary of students' academic performance.

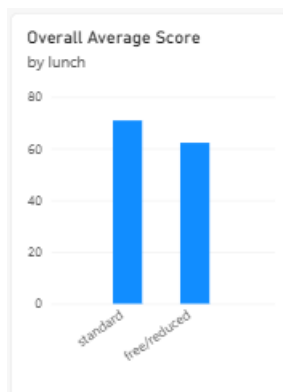

A clustered column chart was created to compare average scores in Math, Reading, and Writing. This visualization helps identify differences in performance across the three subjects.

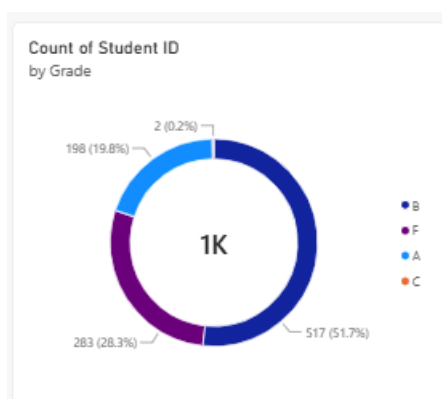

A clustered bar chart was created to compare students' overall average scores across different parental education levels. This helps explore how academic performance varies between these categories.

A clustered column chart was created to compare the overall average scores of students who completed the test preparation course with those who did not.

A clustered column chart was created to compare overall average scores across lunch types. This allows academic performance to be explored across the available lunch categories.

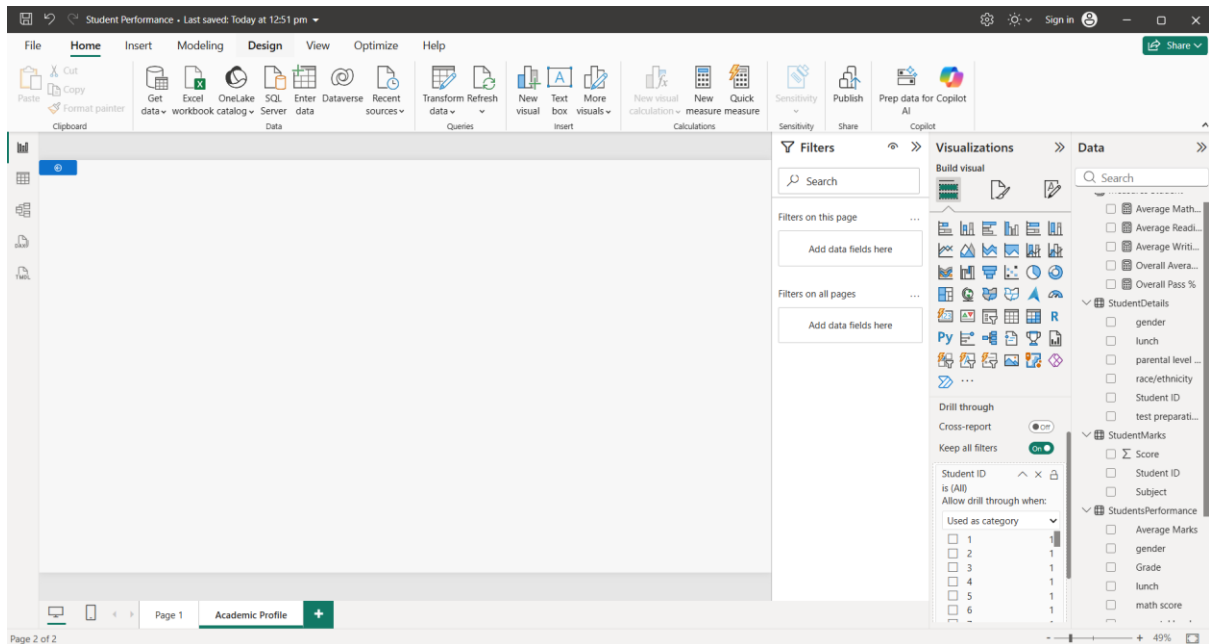

A donut chart was created to display the distribution of students across grades A, B, C, and F. This visualization provides an overview of the grade categories in the dataset.

gender	race/ethnicity	parental level of education	lunch	test preparation course
☐ female	☐ group A	☐ associate's degree	☐ free/reduced	☐ completed
☐ male	☐ group B	☐ bachelor's degree	☐ standard	☐ none
	☐ group C	☐ high school		
	☐ group D	☐ master's degree	Subject	
	☐ group E	☐ some college	☐ math score	
		☐ some high school	☐ reading score	
			☐ writing score	

The following slicers were added to the main dashboard:

- Gender
- Race/Ethnicity
- Parental Education
- Lunch Type
- Test Preparation Course
- Subject

These slicers allow users to filter the dashboard and explore specific student groups and subject scores.

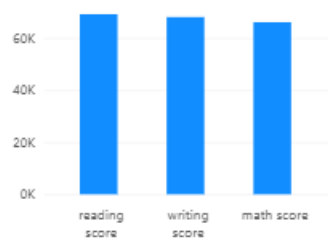

Overall Average Score

67.77

First Grade

A

Sum of Score
by Subject

First Result

Fail

First test preparation course

completed

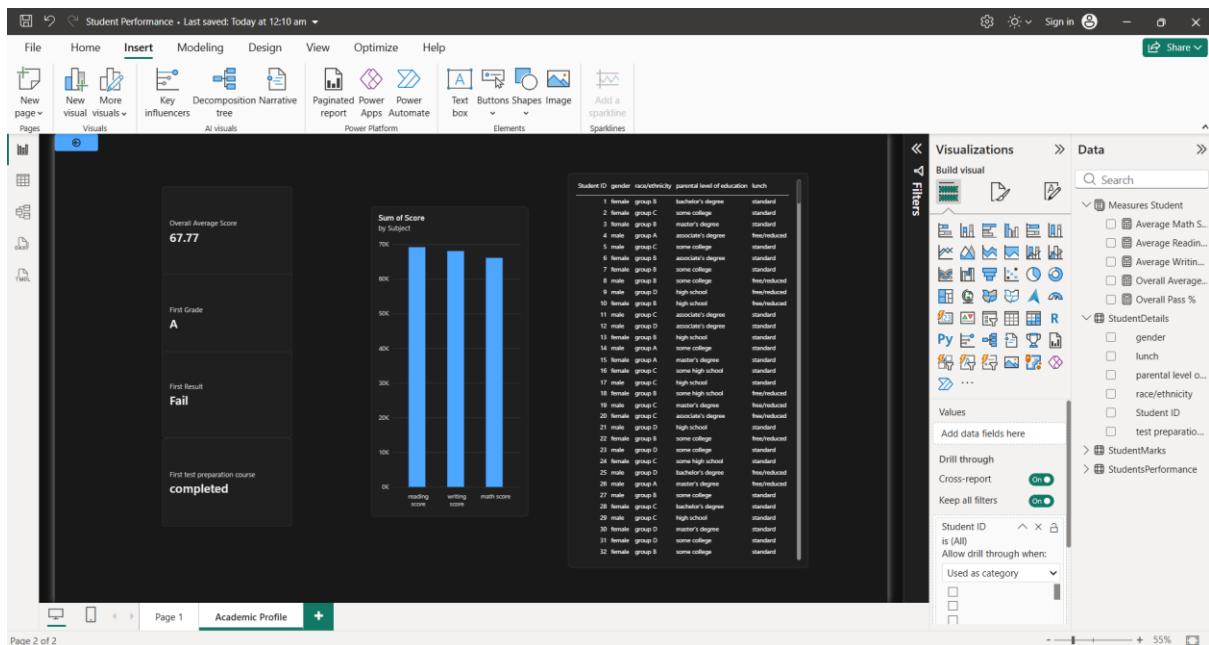

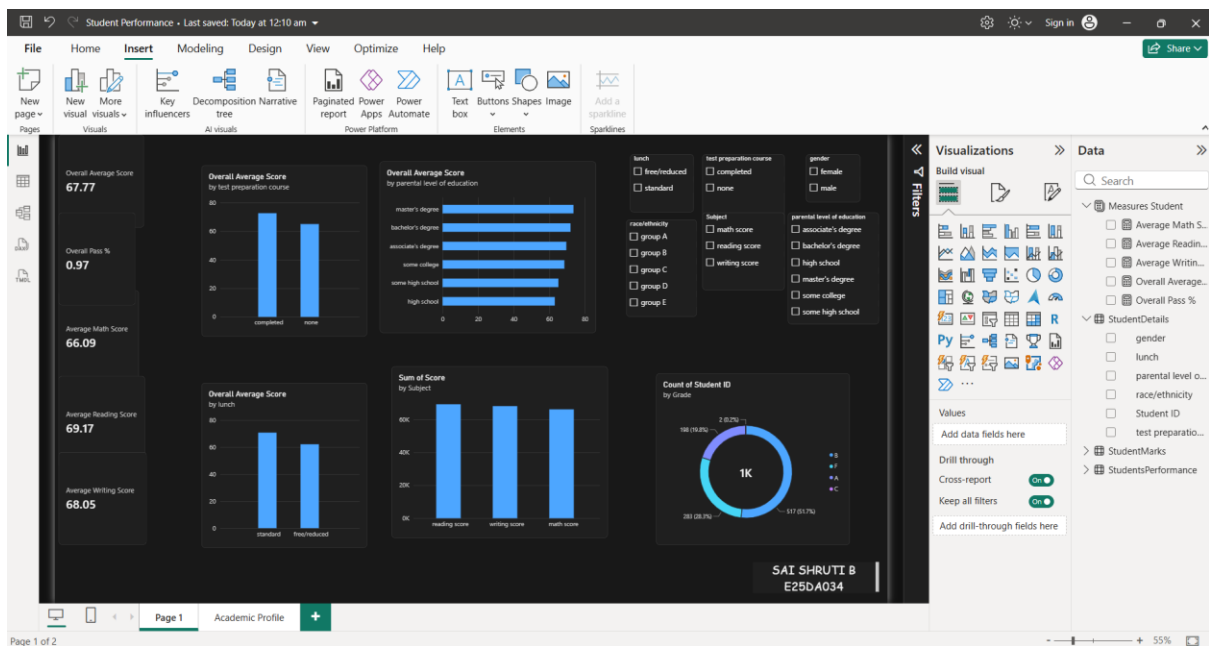

Student ID	gender	race/ethnicity	parental level of education	lunch
1	female	group B	bachelor's degree	standard
2	female	group C	some college	standard
3	female	group B	master's degree	standard
4	male	group A	associate's degree	free/reduced
5	male	group C	some college	standard
6	female	group B	associate's degree	standard
7	female	group B	some college	standard
8	male	group B	some college	free/reduced
9	male	group D	high school	free/reduced
10	female	group B	high school	free/reduced
11	male	group C	associate's degree	standard
12	male	group D	associate's degree	standard
13	female	group B	high school	standard
14	male	group A	some college	standard
15	female	group A	master's degree	standard
16	female	group C	some high school	standard
17	male	group C	high school	standard
18	female	group B	some high school	free/reduced
19	male	group C	master's degree	free/reduced

A separate report page named Academic Profile was created for student-level analysis.

The page includes:

- Average Score card
- Grade card
- Subject Performance chart
- Pass/Fail Result card
- Test Preparation card
- Student Details table

A drill-through field using Student ID was added, and a Back button was included to support navigation between report pages.

The dashboard visuals were organized to improve readability and make comparisons easier. Appropriate titles were added to the charts and slicers to help users understand the information displayed.
